[TTPI Version Control]

[Customizable Description Starts] This report is designed basis the participant's responses on Think Talent Personality Inventory (TTPI) that provides sten scores on 20 traits. Each of the below core capabilities is a sub-set of those traits - carefully identified for the target role. Since, it is based on self-report personality data, it provides some indication on participant's innate orientation for the role, however it should be supplemented with other inputs. [Customizable Description Ends]

Very Low to Weak	Medium	Good to Very High
Score range of 1 to 4.9	Score range of 5 to 6	Score range of 6.1 to 10
